

**Cutting-edge solution for indoor air
quality monitoring, purification and
surface disinfection.**

IMMUNIZER[®]

HEALTHY SPACES - INDOOR ENVIRONMENT

**The first-ever monitoring, control,
and disinfection device
is now available.**

Assembled in EU

IMMUNIZER®

HEALTHY SPACES - INDOOR ENVIRONMENT

IMMUNIZER is an air disinfection unit that disinfects, purifies, and cleans the air and surfaces from pollutants by mimicking disruptive solution air purification methods found in nature (Hydroxyl radical) with monitoring capabilities.

As a versatile sanitation device, it not only purifies the air but also consistently processes and remotely analyzes data to monitor indoor air quality.

Objectives:

Enhances well-being, minimizes absenteeism due to airborne illnesses, and boosts overall productivity by maintaining optimal air quality.

Adaptability:

The Immunizer features a compact design, facilitating easy integration into any space. Whether positioned at mid-height with a wall mount, or on its base: the Immunizer adapts effortlessly to various settings.

Each Immunizer disinfection unit can treat space volumes up to 150 m³, ensuring effective protection in a diverse range of environments.

The **IMMUNIZER** equipment has been scientifically tested and holds certifications from globally recognized laboratories.

Eradication efficacy:

Immunizer effectively eradicates viruses, bacteria, allergens, fungi, odors, and volatile organic compounds (VOCs), achieving up to 99,9% elimination rate (> 99,9% for bacteria and viruses).

KILLS > 99.9% OF VIRUS

KILLS > 99.9% OF BACTERIA

Immunizer protects you, your loved ones, offices, visitors, and customers.

all your integrated
systems HVAC

Data remote

- Easy installation and setup (AfB app).
- Remote monitoring from anywhere at anytime.
- Professional dashboard.
- Analytics, Retrofitting, Reports & Insights.
- Capabilities & Optimal security.
- Sharing is caring.

IMMUNIZER® is a cutting-edge solution for indoor air quality control, monitoring, treatment, and surface disinfection. It is a proactive plug-and-play innovation that is eco-friendly and not harmful to humans.

Compact and lightweight, this device combines advanced monitoring capabilities with alarms, data sharing, retrofitting reports, and real-time indoor air KPIs visualization.

System setup and O&M:

Upon starting the device, it will begin diagnosing and subsequently treating, disinfecting, purifying, and neutralizing airborne pathogens and indirect contamination.

It incorporates wireless sensors and offers a comprehensive package, including dashboarding, reporting, and remote data access. With a hassle-free setup, its deployment is as simple as "plug and play," requiring minimalist maintenance.

Show that you care about the well-being of the people in your building.

Made in Belgium

The IMMUNIZER – Your ally in creating a safer, healthier world for everyone.

Healthy Indoor Environment:

Maintain well-being and good level of indoor air quality.

Building analytics:

Real-time Monitoring remote access, dashboarding, alerting's, reporting.

Continuous Purification & Disinfection:

Create a healthy space by eliminating pollution and reducing environmental nuisances.

IMMUNIZER versus alternative solutions in the market for air quality treatment:

	Immunizer	Ozon	Aerosol	UVC	HEPA filter	Carbon filter
Protection method	Active	Active	Active	Passive	Passive	Passive
Disinfection efficacy	Excellent	Excellent	Good	Good	Medium	Low
Health risk	No	Yes	Yes	No	No	No
Surfaces disinfection	Yes	Yes	Yes	No	No	No
Eradicate odors	Yes	Yes	Yes	No	No	Yes
Remote Access	Yes	No	No	No	No	No
Continuous treatment	Yes	No	No	Yes	Yes	Yes
Plug and play	Yes	No	No	No	No	No

In a nutshell, IMMUNIZER is having the following features and functionalities:

- Permanently disinfection at least 50m2 by OH. :Spores, virus, allergens, bacteria, odours,...
- Natural methods, not harmful to humans
- Diagnose permanently, any place any where, with reporting
- Low noise: < -30 db
- Compact and lightweight
- Web cloud :extract general and specific reports, dashboarding, risk analysis, indoor vs outdoor climate
- Tested & approved CE Efficiency test approved
- Designed according to EU: EN 17 272, EN 60335-1 & EN 60335-2-65
- Eco friendly : ~6 Watt only
- Compliance to EU directives
- Compliance to WHO regulation
- Building energy consumption optimization
- Made in Belgium. Designed and assembled in CE
- Sustainable & durability
- Warranty 24 months
- Cyber-resilient
